Honorable mention went to Robin Branch, on the left, also a seven year-old Second Grader. Robin won $3.00, doubled by The Mead Corporation. She is the daughter of Mr. and Mrs. C. D. Branch of Gladstone.

The theme for this year's contest was "Trees for People", and all posters were to show one or more of the many ways man depends on trees and products manufactured from the forest resource. Over 17,000 posters were entered in the contest.

23% Adjusted Gross Income

New York - The outlays that Appomattox County residents made in the past year for local and state taxes, for charitable donations, for medical services and the like are now appearing in a new light. They have become transformed into assets.

For local people who are assembling their 1972 income and expense figures in preparation for their Federal tax reports, those expenditures now look like money in the bank.

The reason? They represent tax deductions. The more that was spent for such purposes last year, the less that will have to be paid in April, when Tax Day rolls around.

Naturally, only those expenditures for which proper records were kept, capable of substantiation, can be claimed as deductions.

Appomattox County residents who itemize their deductions will be interested to know how much other people, with incomes similar to their own, have been listing as deductions.

How do their charitable contributions compare? What about local taxes, medical costs and interest paid on loans?

Helpful information along these lines comes from the Commerce Clearing House, an authority on tax law, based upon data released by the Internal Revenue Service.

It shows that, in general, families throughout the country average, have been listing deductions of $1,740, equivalent to 23 percent of their adjusted gross income.

For those with lower than average earnings, the deduc-

Due to the untimely "spring snow" that blanketted Appomattox last Wednesday, the Jaycees have rescheduled the date for their annual light bulb sale.

Money made on this sale will be used by the Jaycees to assist civic organizations in our area. This is just one more of the many projects sponsored annually by this fine group of young men. Support this project . . . buy a supply of light bulbs when they stop by.
